DETAILED ACTION

Acknowledgment is made of the amendment filed 2/16/06. Claims pending are 1-14. Claims 1 and 3 have been amended. Claims 4-8 and 12-14 remain withdrawn from consideration as directed to non-elected invention.

Election/Restrictions

1. This application contains claims 4-8 and 12-14 drawn to an invention nonelected with traverse in the reply filed 10/24/05. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. The rejection of Claims 1-3 and 9 under 35 U.S.C. 102(a) and (e) as being anticipated by Esser et al. (US 6,241,976) is maintained for the reasons of the record.

Claim Rejections - 35 USC § 103

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. The rejection of Claims 10 and 11 under 35 U.S.C. 103(a) as being unpatentable over Esser et al. (US 6,241,976) is maintained for the reasons of the record.

Response to Arguments

6. Applicant's arguments filed 2/16/06 have been fully considered but they are not persuasive.

In response to the Applicant's argument that the Esser et al. reference does not disclose a polyol-in-silicone emulsion that *consists essentially* of the alkyl dimethicone and the polyol, it is noted that the claim language "consisting essentially of" does not exclude the presence of additional components unless the Applicants provide an evidence that the presence of those additional components "would materially affect the basic and novel characteristics of the claimed invention." See MPEP 2111.03 citing *In re Hertz*, 537 F.2d 549, 551-52, 190 USPQ 461, 463 (CCPA 1976). The Applicant presented no evidence that the presence of additional components would materially affect the basic and novel characteristics of the claimed emulsion. According to MPEP 2111.03 (citing *In re De Lajarte*, 337 F.2d 870, 143 USPQ 256 (CCPA 1964)), the Applicant "has the burden of showing that the introduction of additional steps or components would materially change the characteristics of applicant's invention."

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 1616

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
